In 2020, the entire world faced an unprecedented sanitary crisis. Other than its major impact on the economy and our health, it has also given us a worrying new perspective on our consumption patterns while also influencing our work flow in a potentially negative manner.

All the while, finding ways to adapt to the constraints of such a peculiar year, we chose to stay true to our brand values. We therefore redesigned the packaging for 56 Aquarellum boxes and now use paint flasks that are made of 100 % recycled plastic. We also developed 35 new products including one, the Loto des Sons, that won the "Grand Prix du Jouet", and another, l'Atelier Résine, that was awarded with not 1, but 2 "Etoiles du Jouet".

In 2021, we will continue along this path of not only consolidating previous launches, we have also decided to redevelop and rethink some of our games to improve their sustainability.

Now more than ever, the quality of our products and their eco-friendly design are at the heart of everything we produce and aim to produce going forward, offering never ending fun and educational content to all families.

Now we wish to give a much more active role to our products packaging itself, so that it no longer goes to/ or is considered waste product. One example, Sablimage's new « Concept'box » packaging has already been implemented onto 8 existing boxes. It now provides a box that can be turned into a picture frame (made out of 100 % recycled cardboard) to enhance a child's favourite sand art board (of the 4 artboards provided in each pack).

All of the varying formula contained in our Soap DIY kits are now vegan and have been revised to increase their transparency. The moulds are now made using a more supple material with bigger, more volumetric cutout shapes for a more enjoyable experience.

An organic Cosmetic Lab will be available in the spring and will offer a wide range of fun experiments for children and adults.

As we can no longer travel, and also quite poignantly, have a renewed awareness of the importance of our sense of smell, we decided to create a great olfactory escape experience with our new game Voyage Olfactif - le tour du monde en 30 odeurs (Olfactory Trip – Around the world in 30 smells).

Over the course of the game, you will discover the famous arabian souk market in Marrakech, the flower markets in Madras, the Spice markets in Bombay or even the vetiver plantations in Java! A fun game for all generations to travel the world without leaving their homes!

We have remained staunchly at your side during this difficult period for us all and are preparing numerous surprises that you can discover through our physical catalogue which will be available from mid-April. We would also be very happy to welcome you to our showrooms in France!

# Le LOTO des SONS

Author: Véronique Debroise

After Sentosphere's amazing bingos around the senses of Smell and Taste, the range is now welcoming the Sound version.

120 sounds, with answers recorded in 8 languages, are presented in an interactive electronic box. Once a player presses on the button, a sound is released. Be the first one to recognise it and grab the chip that represents it! The player with the most chips at the end of the game wins.

A fun educational game to discover city sounds, different music instruments or bird songs, all the while learning 120 words in 8 languages.

# LA ROUTE DES ÉPICES 7+

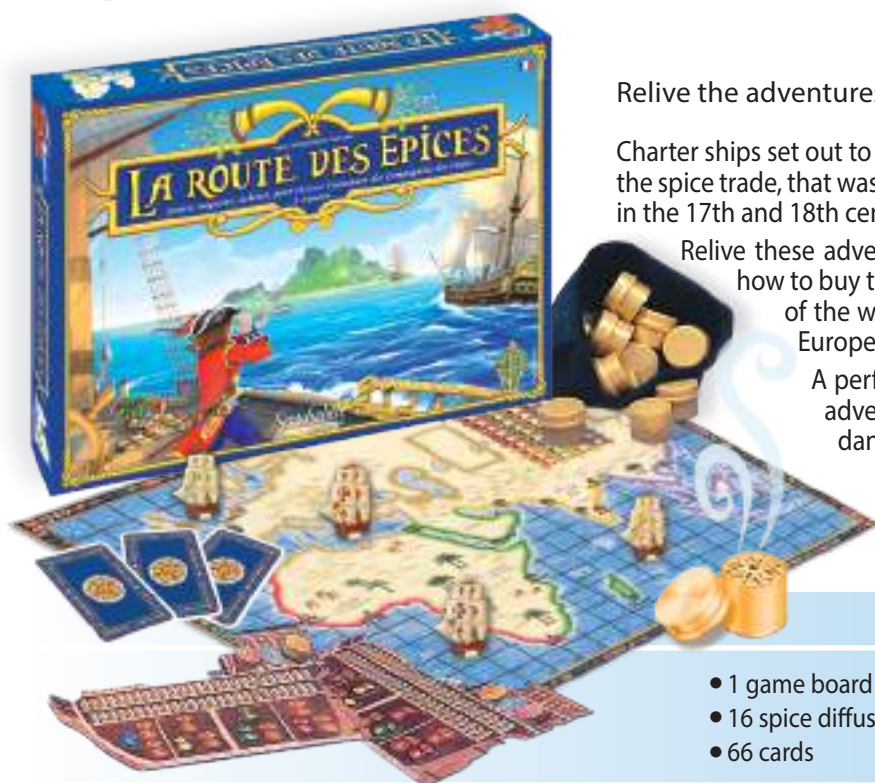

Authors: Véronique Debroise - Victor Lucas

Relive the adventures of the Great East Indies Companies.

Charter ships set out to conquer new territories and acquire a monopoly in the spice trade, that was the objective of East Indies Companies shipowners in the 17th and 18th centuries.

Relive these adventures by learning to recognise the spice aromas, how to buy them at a good price, then resell them in other parts of the world at a profit and return as quickly as possible to Europe with the precious bounty.

A perfect game to understand trade tactics, to relive the adventures of the first navigators and to discover the dangers of life at sea.

## Save the animals!

This strategy and family game will take you to the heart of the African savannah to save 8 endangered species. All players will incarnate Massai guides that need to bring the animals to different national parks where they will be protected. Sometimes, tourists or poachers will disturb the game but safe water sources will help them achieve their important mission!

This game, designed by Victor Lucas, is as esthetic as it is strategic and will be loved by all generations.

Topscent is a fun game during which reflexes, concentration and olfaction challenge you!

Equally deal the cards. The players sit in a circle and must smell the same aroma diffuser without revealing their answer to the other players. The dice is thrown, the game starts.

Each player draws the first card of his deck clockwise. Once the recognised fruit or vegetable appears the number of times indicated on the dice, top the cards and win the stack! Be careful, those who are mistaken are eliminated until the end of the round.

The winner is the one with the most cards at the end of the game.

# Ma Manucure Créative

Boast the hands of a princess with this fashionable manicure kit. Young girls will be able to spend an afternoon painting their nails green, blue or pink, with varnishes that come off at the first wash. For those who have permission to do so, the colour can last a few hours longer with a layer of top coat. The nails can also be made to shine with a polisher or decorated with golden glitter, stickers or stencils.

By applying the very discreet and natural looking mini false nails, young girls who bite their nails will quickly want to stop this bad habit. They can be removed in warm water without being damaged.

NOUVEAUX PACKS CADRES

The Sablimage range is now framed with a new eco-friendly packaging concept!

Sentosphere wishes to help build an economy that is more respectful to the planet. Every day, we work on finding new solutions to improve our products and our manufacturing processes. We are already proud of our French based production and our thorough selection of eco-friendly raw materials (FSC certification, recycled and recyclable cardboard and plastic), but we can always go further!

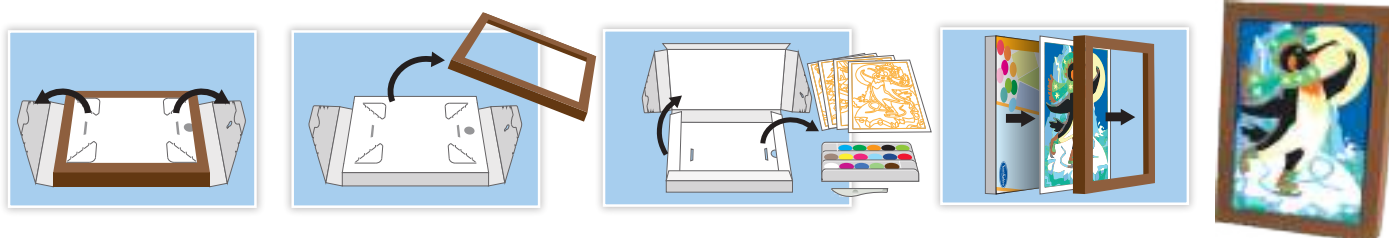

That is why we developed: **Concept'box** ! A new waste free and revolutionary packaging concept:

- **The box turns into a frame** to enhance the sand art boards made with each kit. The packaging therefore takes a full part in the provided creative activity.
- The packaging is glued to guarantee the inviolability of its content, all the while **avoiding the use of plastic wrap**.
- As for the rest of our kits, the box uses **recycled cardboard** and is **FSC certified**.

This new range therefore allows to enjoy the famous Sablimage technique with a more sustainable approach. Making sand art is now a creative activity that can be as fun as it is eco-friendly!

## GRAND FORMAT

Aquarellum is a collection of paintings created by Véronique Debroise using an innovative and exclusive technique, that of masked vellum paper. This technique permits the creation of very subtle paintings: the brush does not run over the edges of the design, subjects magically appear with the vibrant colored paints.

Enjoy these large illustrations for even more magic!

Every Contes et Paillettes box contains a book with 4 heroin adventure stories. Mermaids, Princesses of the world or dancer. Each story is accompanied with a glitter colouring board. You will love reading or listening to these stories, all have a happy ending. Young readers or listeners will share values such as respect, courage and the need to preserve our environment. With a brisk rythm and a charming sense of humour, the author: Alix Blanchard Dignac wished to offer her young readers the childhood dreams conjured up when coloring Aquarellum or Sablimage.

Alix graduated from the Paris Institute of Political Studies, commonly referred to as Sciences Po, and is passionate about modern literature and philosophy. She here writes her first fairy tales to accompany the arts & crafts activities she enjoyed as a child.

4 glitter colouring boards and a lovely illustrated book telling the adventures of 4 mermaids, guardians of the oceans. A dreamlike universe for children to travel the world and make 4 dazzling pictures.

Aquarellum  
JUNIOR

The Christmas magic can also be found in the Aquarellum range! With the help of water-based inks, all artists will have fun adding vibrant colours and gradients to bring to life beautiful illustrations of Santa Claus, presents and decorated trees!

Thanks to the masked outlines, the paintbrush is guided and children cannot paint over the edges! With each added colour, the illustration details will magically appear. A fun, magical and creative activity.

## Calendrier de l'Avent

Author: Véronique Debroise

Les 24 Senteurs de Noël

24 new and original smells to represent the Christmas theme: incense, myrrh, Christmas tree, gingerbread...

24 olfactory surprises to gather all generations together around a fun activity: recognising smells and developing an olfactory sensitivity.

Once these 24 sensory discoveries are made, a game will allow you to use all the elements of this kit.
