## *Revealing future callings*

Over the past few years, the world as we've come to know it has changed. Matters like protecting the planet along with its resources are now urgent and are clear to everyone. Consumers are also becoming more demanding and attentive regarding the design and origin of the products they purchase. Since the company's first steps 34 years ago, Sentosphere has decided to develop games in compact boxes that are mainly manufactured in its French factories.

Over the years, this vertical integration has allowed us to acquire an industrial know-how that enriches our game production ability, as we can manufacture not only perfume, cosmetics, paints and candles - but boards, tokens and boxes too. We also share our industrial expertise with other companies, who like us wish to manufacture in France.

In order to be able to offer new industrial re-localisation alternatives, we invested in a puzzle pressing machine that has been set up in our box factory. This press can handle projects of on a big scale and can also be used to manufacture dominos, memory games, tokens, etc.

As of September 2022, this investment has come fruition, with the launch of our new "1000 piece" puzzle range under the Calypto brand. As always, Sentosphere made sure to bring its own touch to the puzzle world: All pieces of a Calypto jigsaw puzzle are unique, their surface has a pleasant soft-touch finish and they are printed with 7 colours in order to obtain the widest range and bright nuances that a regular offset puzzle printer cannot offer. We find it essential to give the highest printing quality and colour rendering, especially for puzzles that present classical works of art, where painters have used intense colour pigments. With a cardboard thickness of over 2 mm, a satisfying feeling is given when placing each piece and allows the user to easily move the puzzle while it's still in progress. The Calypto box format is compact, half the size of standard puzzle packaging, still offering plentiful room on the side of the box for all essential and applicable information. Easy to read, facilitated storage and a smaller footprint optimized for store shelf space... We designed this range not only for our end consumers but also for you. In 2023, we are extending our puzzle range to young children and seniors with puzzles that have XL sized pieces.

Our other games and arts & crafts kits also have a lot to offer in 2023! For example, we developed the inclusive "Alphabet game" to help young children learn all the letters of the alphabet along with discovering braille and sign language while looking for hidden animals in a lush forest.

As with every year, new themes will join our popular Aquarellum range while the Art & Creations collection will bring newly designed packaging.

But our favourite novelty for 2023 is Voyage Olfactif. Like our previous olfactory games, this one is unique thanks to the 31 smells provided. They will help you travel the world while evoking memories and feelings to aid you in finding the right image to go with the scent. We are proud to have created this wonderful game with 2 authors and we particularly love its cooperative approach and predict many fun moments will be shared.

Enjoying sensory awakenings, learning while having fun, developing one's talent and using kits that respect the environment has been Sentosphere's motto since 1989.

Into 2023 we go with as much passion and conviction as ever, that we will continue to keep the same playful flame burning.

Véronique Debroise

# Le LOTO des SONS

Author: Véronique Debroise

After Sentosphere's amazing bingos around the senses of Smell and Taste, the range is now welcoming the Sound version.

120 sounds, with answers recorded in 8 languages, are presented in an interactive electronic box. Once a player presses on the button, a sound is released. Be the first one to recognise it and grab the chip that represents it! The player with the most chips at the end of the game wins.

A fun educational game to discover city sounds, different music instruments or bird songs, all the while learning 120 words in 8 languages.

# TopScent

Author: Véronique Debroise

Topscent is a fun game during which reflexes, concentration and olfaction challenge you!

Equally deal the cards. The players sit in a circle and must smell the same aroma diffuser without revealing their answer to the other players. The dice is thrown, the game starts.

Each player draws the first card of his deck clockwise. Once the recognised fruit or vegetable appears the number of times indicated on the dice, top the cards and win the stack! Be careful, those who are mistaken are eliminated until the end of the round.

The winner is the one with the most cards at the end of the game.

Box contents

# L'alphabet

Author: Véronique Debroise

3+

NOUVEAU

The game offers a fun and inclusive methode to learn letters in different ways.

Starting from 3 years old, children will be able to discover the alphabet, braille and sign language!

To do so, children will turn into explorers that need to find the hidden animals in the landscape illustrated on the board through different challenges like writing the letter on a black board, recognizing the letter with the sense of touch, signing the letter or making the letter's sound. If the challenge is successful, the animal can be placed on the board!

Little by little, with each added animal, the alphabet will be brought to life thanks to this fun educational game.

# LA ROUTE DES ÉPICES

7+

Authors: Véronique Debroise - Victor Lucas

Relive the adventures of the Great East Indies Companies.

Charter ships set out to conquer new territories and acquire a monopoly in the spice trade was the objective of East Indies Companies shipowners in the 17th and 18th centuries.

Relive these adventures by learning to recognise the spice aromas, how to buy them at a good price, then resell them in other parts of the world at a profit and return as quickly as possible to Europe with the precious bounty.

A perfect game to understand trade tactics, to relive the adventures of the first navigators and to discover the dangers of life at sea.

# VOYAGE Olfactif

Author: Véronique Debroise,  
Arnaud Pincemaille and Philippe Attali

NOUVEAU

This game will make you travel without leaving your house! You will be able to go around the world in 31 smells from the Marrakech souks to the Polynesian beaches without forgetting to stop by the pyramids in Egypt!

During this collaborative game, each player will have to make the others guess their travel picture with the help of smells that can recall its geographic location, its colour or even what it basically represents.

This game presents 70 travel pictures taken across the world along with 30 smells. Some associations are easy to make, like the smell of lavender for a Provence landscape in France. But other times, players will have to get creative because the smells of leather, algae or lemongrass are not always associated with the same ideas depending on the players.

With this olfactory trip, get ready to live some fabulous sensory adventures with your family or friends.

# TOPSONG

Author: Véronique Debroise

Do you think you can recognise, in just a couple of seconds, the most famous classical music pieces like Vivaldi's Four Seasons, Beethoven's Fifth Symphony or Tchaïkovski's Swan Lake? We have all heard these masterpieces in movies, at weddings or even in ballets as they are part of our culture, but we do not always know their name or their composer! This game is perfect to help you memorise these famous tunes and their composers.

This game also offers a sound quiz to recognise 46 music instruments!

A fun sensory and observation game to stimulate your reflexes and reveal one's musical calling.

# L'Atelier de Bijoux

## Résine & inclusion

Design your own fabulous jewellery with this creative set! Simply mix resin with a catalyst, add colour to the preparation if you wish and then pour it into your choice of the moulds and pendants supplied.

You can make inlays to beautify your jewellery creations using the glitter and mini-fruits supplied. 20 hours later your creations can easily be removed from their moulds and turned into beautiful bracelets, rings, necklaces and key rings! A magical experience to take your first steps in creating 'designer' jewellery pieces!

L'Atelier de Bijoux

Réf : 837

### Box contents

- 120 ml of resin + 100 ml of a hardening agent
- 3 colourants (red, blue, yellow)
- 2 beakers
- 1 positioning stick
- 1 glove
- 1 pot with polymer decorations
- 3 pots with glitter chunks
- 4 chains, 2 ring supports, 4 keychains, 6 pendants and hoops
- 1 mould with different shapes
- 1 sticker for the pendants
- 1 protective sheet

# SablImage<sup>®</sup> Concept'box

4+

For the past 15 years, Sablimage has helped young children easily create intricate pieces of art with sand. All it needed now was to find a way to frame the created sand boards!

Sentosphere therefore designed the Concept'box: a zero-waste packaging solution that turns into a frame and **that has been rewarded with the 2021 LSA INNOVATION AWARD** in the "Packaging Trend" category.

Playing is good, doing it responsibly is better! The Concept'box allows Sentosphere to benefit even more from the Sablimage technique, while better respecting the planet because it is:

- **The box turns into a frame** to enhance the sand art boards made with each kit. The packaging therefore takes a full part in the provided creative activity.
- The packaging is glued to guarantee the inviolability of its content, all the while **avoiding the use of plastic wrap**.
- As for the rest of our kits, the box uses **recycled cardboard** and is **FSC certified**.

This new range therefore allows to enjoy the famous Sablimage technique with a more sustainable approach. Making sand art is now a creative activity that can be as fun as it is eco-friendly!

## THE PACKAGING BECOMES A FRAME:

The Concept'Box's has a very positive environmental impact: This box is 24 % lighter which helps save 5 tonnes of cardboard each year. Shipping a lighter box helps save 5,185 kg CO<sub>2</sub> (emissions in CO<sub>2</sub> equivalent) annually. As this box can be turned into a frame, it is not to be recycled or thrown away and this helps save 17 tonnes of waste each year!

# Aquarellum

The Aquarellum range will help artists of all ages and levels discover the pleasures of watercolour painting and colour mixing all the while creating true masterpieces! This painting technique will allow all ages to easily create beautiful works of art thanks to:

- Highly qualitative, thick vellum paper, perfect for watercolour painting as the paper will not crinkle.
- Illustrations with masked outlines that will magically appear at each brush stroke. They will keep the paint from adhering to the masked surfaces.
- Watercolour inks that mix perfectly and that can be overlaid to create beautiful gradients.
- A detailed instruction sheet on the perception and the mixture of colours.
- A made in France concept.

This is the perfect arts & crafts activity to initiate young children to the art of painting and mixing colours, all the while awakening their sense of concentration. The result is guaranteed to encourage artists of all levels and ages in their creative process.

- Produit comportant au moins 70% de matière recyclée
- Flacons et bouchons en PET recyclé à 50%
- Des encres non-toxiques à base d'eau
- Palette en matière recyclée à 30, 60 ou 70% selon modèle
- Boîte en carton recyclé à au moins 80% certifiée FSC
- Tableaux certifiés FSC

# Aquarellum LIVE

The Aquarellum Live collection is taking the magic to the next level since children will be able to literally bring their works of art to life by turning them into 3D animated figurines!

After having enjoyed a fun and creative painting activity, children can scan their paintings with a mobile app (IOS and Android compatible) that will animate their own colouring! They will also be able to interact with their creation and even take pictures or selfies with it! Young artists will have fun collecting all the different figurines in the app's digital gallery showing their own personalized and animated versions!

This fun kit will gather a traditional painting technique with the digital world, adding a fun twist to an already magical creative activity. Children will be able to fully play, interact and proudly share their own creations!

# Aquarellum

GRAND FORMAT

Aquarellum is a collection of paintings created by Véronique Debroise using an innovative and exclusive technique, that of masked vellum paper. This technique permits the creation of very subtle paintings: the brush does not run over the edges of the design, subjects magically appear with the vibrant coloured paints.

Enjoy these large illustrations for even more magic!

Aquarellum  
PHOSPHO

Thanks to its phosphorescent masked outline, children will be able to carry out with the same ease as with a classic white masked outline, the colouring of their painting. The palette of 7 basic colours, as intense as they are bright, will allow them to create wonderful shades that will highlight the drawing. After a few minutes under a halogen or in the sun, the contours of their painting will illuminate in the darkness or at night.

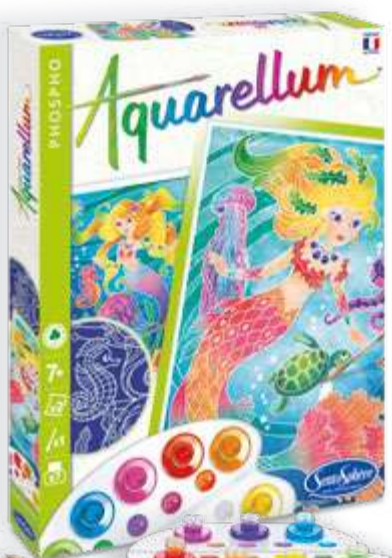

Ideal to fall asleep between mermaids, unicorns or in the universe of galaxies to make beautiful dreams.

# PLASTIC FOLIE 6+

A range specially designed to have fun creating beautiful charms, key-chains, jewellery items or dream-catchers out of thermo-shrink plastic! Colour the printed and pre-cut designs on the shrink plastic sheets and put them in the oven at 180°C. A couple minutes later, the illustrations will have reduced by 7 times their size and thickened to become nice and rigid creations! You can also use the plain sheet provided to create your own designs!

**Plastic Folie Bijoux**

## STICKERS VITRAIL 4+

**Mandalas**  
Réf : 25900

**Petits Princes**  
Réf : 26900

From the age of 4, children will be able to create really pretty stained glasses to decorate the refrigerator, the windows or their bedrooms. The result is always beautiful, thanks to a mounting frame which guides the hand of the child to avoid going over the edge of the pattern. In addition, the fine tip of the applicator and the fluidity of the paint help children reach all corners of the design.

### Mandalas box contents
