

Crocodile Creek®

2023

OUR VISION... OUR WORLD...

CARING TODAY. PLANTING SEEDS FOR TOMORROW.

We believe that within the moments of today are the seeds for the possibilities of tomorrow.

We believe, that in many ways, these extraordinary times are also times to dream, to imagine and to build. We believe these are also times for inspiration, discovery and creativity.

We believe that this moment in time is a time to care even more about the children in our world.

It is time to nurture them so they will know the joy of today and the promise of tomorrow.

It is a time to inspire them so they might know the wonder of discovery, the delight of imagination and the thrill of creativity. It is time to guide and teach them so they will know the joy of connection and the satisfaction of learning and accomplishment.

Our goal at Crocodile Creek is to create thoughtful, beautifully designed products for the children in our world, to care about all those with whom we work, to care about the world in which we live and to continuously plant seeds for tomorrow so we and our world can thrive and flourish in the days and years ahead.

MEL BROWN, STEVE BROWN AND THE FOLKS AT CROCODILE CREEK

THE CROCODILE CREEK STORY

Crocodile Creek was born in memories of childhood play. Playing in the nooks and crannies of a small house in Indiana on a tree lined street in the shadow of the steel mills. Playing in a small yard with a green fence and a climbing tree and a green swing set and a green sandbox. Playing with the playthings of childhood. Cardboard boxes and finger paints, squirt guns and cap guns, sprinklers and wading pools, Block City and Lincoln Logs™, a knight's castle and a Roy Rogers ranch, Howdy Doody and a G.I. Joe™, toy soldiers and a clown marionette.

Beginnings. 1983. New York City. In the city of possibilities and dreams.

A chance encounter between two people on the Upper West Side.

An idea shared of the beautiful toys of Europe. A business was born.

A new chapter. 1994. Indiana. Two brothers joined together on the southern shore of Lake Michigan in the land of dunes and steel mills where the Potawatomi people once roamed. Years of learning and building together, and then years in the Triangle of North Carolina. Years of challenge and change, years of growth and accomplishment; years of deep gratitude. After 37 years more than 50 million toys and products brought to children in over 50 countries around the world!

Journeys of discovery and connection. Journeys around the world, to the mountain villages of Italy and Switzerland, to the medieval walled cities of Germany and Spain, to the cities across the Americas, east and west, north and south, to the cities and factories of Hong Kong, China, the Philippines, Sri Lanka and Thailand.

Crocodile Creek grew and thrived in working with people around the world. Working with designers, illustrators and photographers, store owners and factory owners, sales people, advisors, accountants and bankers, people working in offices, in warehouses and in factories, people driving trucks, piloting boats and flying airplanes...all the while with the support of family and friends, an amazing network of human beings...hundreds, perhaps thousands of people, working together to help make a dream a reality, to transform an idea into a business. All the wonderful people over all the years. People—the building blocks of Crocodile Creek. Yesterday. Today. Tomorrow.
